From the Dir of P H

Letter no C 51-17 of 22/1/42

Recommends, in the circumstances, stated, the transfer of the whole staff of Sr. Vani Vidas Water Works at Hassan to the Bureau of Sanitary Engineering

1) It is stated that the water works has been brought under the control of the Bureau of Sanitary Engineering ever since it was completed, but the salary of the staff has been disbursed by the Hassan Municipal thus resulting in dual control

2) In order to put an end to this sort of dual control, the Sanitary Engineer requested the Prd of the M.C. to allow the disbursement of the salary of the staff by the Asst Engineer No 3. But in the Prd's reply that the present arrangement should continue. The M.C. have also resolved on 29/1/41 to request Govt to hand over the entire management of the water works

3) In these circumstances, the D.P.H. recommends to the Govt to order as per proposal for the transfer of the whole staff to the Bureau of Sanitary Engg

4) Subd for perusal & orders

23/1/42 Please put up a copy of G.O. ordering that all water works should be under the control of the Bureau of Sanitary Engineering

6) Kind reference is invited to G.O. No. 27583 of 2-3-1940
and No. 8224 of 28-2-1940 directing that the
management of the water works at Sakleshpur and
Krishnarajanager towns respectively may continue to be
under the Bureau of Sanitary Engineering.

* Flag 'Y' in the linked file
* Flag 'H' - " -

7) Submitted for favour of orders
22-3-42 D. P. H. has saparately raised the
question of general policy that all
the water works should be maintained
by the Sanitary Engineering Bureau vide
linked file. On the one hand there
was a Resolution before the last R.A. (Darius)
asking for transfer of control of water
works to such M.C.s as are willing
to take them over.

O. (2 1495)

8) The Maudyn M.C. have been allo-
cated if they would engage qualified
hands, should the control of water supply
be transferred to them. It appd, a little
enquiry work has been made of the Hassan M.C.
Even if the staff is to be transferred to
the Bureau as proposed, the funds will have
to come from the M.C., and the enquiry
suggested would be in order prior to
considering the D.P.H.'s proposal.

Letter No 113 dated 22nd July 1942 from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Director of Public Health in Mysore, Bangalore

Re handing over of Hassan Water Supply to the charge of the Municipality for maintenance

21)

With reference to your memo No C 51-35 dated 25th May 1942 forwarding the Unofficial file pertaining to the above, received from Government and requesting my opinion in the matter, I have the honour to state that from the perusal of the records I find that the question of handing over of the management to the Municipal Council of the Hassan Town Water supply installation arose on account of the request by the Sanitary Engineer for the disbursement of the staff salary by the Sanitary Engineer himself, instead of by the Municipality. Excepting the above there was no other consideration or complaint.

Municipal water supply installations consist of machinery which require day to day attention at the hands of trained drivers and operators. This can only be provided by the Bureau of Sanitary Engineering under whose control there are a number of trained hands who are in charge of various installations. The Assistant Engineers of Sub Divisions who are qualified men of experience will also be inspecting the installations frequently during their tours and the machinery watched. Also, from the health aspect of water supplies, it is possible to watch by chemical tests the water supplies by the staff of this Department.

It has also been possible, in the event of breakdowns and emergencies, to immediately get on the spot the necessary personnel and the spares from other similar installations, if need be, and restore the water supply to the town with the least possible delay.

+

Under the above circumstances, I am not in favour of handing over the management of the Hassan Water Works to the Municipal Council. These aspects of the case may kindly be brought to the notice of the Deputy Commissioner, Hassan, who has also recommended the transfer of the installation to Municipal Control. If the Municipal Council so desire it, the distribution system may be given over to the control of the Municipality, the head works

head works and the purring stations being retained under the Bureau. It will then be the duty of the Bureau to only work the machinery for a fixed number of hours and leave the rest of the management of the distribution to the Municipality. The same arrangement may, with advantage, be followed after consulting the Deputy Commissioner for Mandya Municipality also in which case this office letter No 16 dated 4th July 1942 recommending its transfer will have to be considered as cancelled.

The Unofficial file sent with your letter under reference is herewith resubmitted.

Letter No 406 dated 2nd October 1942 from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Director of Public Health in Mysore, Bangalore.

Subject - Handing over Hassan Town Water Supply to the charge of the Municipality for maintenance.

22)

With reference to the above, I have the honour to state that I met the Deputy Commissioner, Hassan District, the Municipal President, Town Municipal Council, Hassan, and some important Municipal Councillors at a meeting on the 29th September 1942 and discussed the question in detail. The views explained in my letter No 113 dated 22nd July 1942 were fully brought to their notice and it was unanimously agreed that it is desirable to continue the water supply system under the management and control of the Sanitary Engineering Department as here-to-for.

Under these circumstances, I request that Government may be intimated accordingly.

The Unofficial of papers is herein enclosed.

Re Management of Hassan Water Supply

I have the honour to state, that the Sanitary Engineer in his letter No 1022 dated 8-1-42 reports that the Hassan Municipal Council have resolved at their meeting held on 29-11-1941 that the request of the Sanitary Engineer to allow the disbursement of the salary of the Water Supply staff by the Assistant Engineer, No 3 Sub-Division cannot be approved and that the Government may be requested to hand over the entire management of the Water Works as was being done before. A copy of the resolution together with a copy of the Sanitary Engineer's letter on the subject is enclosed for the information of Government.

The Sanitary Engineer is of the opinion that in the interests of service it is necessary that the whole management should rest either with this office or with the local body and requests orders for the transfer of the whole staff to the Bureau of Sanitary Engineering completely so that the disbursement of their salary also may be under the control of the Department.

I request you to be so good as to obtain and convey orders of Government in the matter.

I have the honour to be,
Sir,
Your most obedient servant,

G. G. Arunachalam
Director of Public Health

APD

Letter No 1022 dated January 8, 1942 from the Sanitary Engineer, Bangalore, to the Director of Public Health in Mysore, Bangalore

Re Hassan Water Works

I have the honour to state that the management of Hassan Water supply has been under the control of the Bureau ever since the original works were completed, but the Municipality has been disbursing the salary of the staff employed on the water works. This has led to double management, and hence the President of the Municipality was requested in this office letter No 315 dated 5th September 1941 to allow the disbursement of salary of the water supply staff also to be done by this Department, and in reply thereto, the President has submitted a report to the Deputy Commissioner wherein he has stated that the Council have unanimously resolved that Government may be requested to hand over the entire management of the water works to the local body. A copy of the resolution of the Municipal Council has been forwarded to this office by the Assistant Engineer, No 3, Sanitary Subdivision, Hassan, in his letter No 885 dated 25th December 1941 and I am of opinion that it is necessary in the interest of the service that the whole management should rest either with this office or with the local body. I would, therefore, request you to kindly obtain necessary orders of Government instructing the President of the Municipality to transfer the whole staff to this office completely, so that the disbursement of their salary also may be under the control of this Department.

The Dir of P.H.
in Mysore
It is one of the several
in forwarding a copy of
with reference to your letter no C-51-17 D/22 142
received from the Dir of P.H.
Soliciting orders of Govt in the matter of
transfer of the entire staff of the water
works at Hassan to the Control of the Bureau
of Sanitary Engineering in order to put an
end to the dual present arrangement which
allows dual control being exercised both by
the Bureau and the local Town Municipal Council,
I am directed to state that Govt would
have no objection to handing over the
maintenance of the said water works to
the local town M.C. as resolved by them
at their meeting held on 29-11-61 for
a period of 3 years on the first instance
if they are prepared to employ duly
qualified men for the operation of the
plant and take such precautions as
the B.M.S. Sanitary Engineer may suggest
from time to time to ensure the

efficiency and purity of water supply

I am accordingly to request
You to Communicate the above decision
to the Hassan Town M.C. through
~~the Hassan M.C.~~ and to submit its views
resolutions thereon with your remarks,
if any, for the final orders of Govt.
